

NON #12: MOR AM I OUT OF IT

→ must be dramatic!

- dealing with Rook and memory-return
- followup on South Seas people and Reapers base
- more info re: nuke sub and Reapers (obvious that they're back into shape) → real desperate setup for next time

FS support staff
French villains

- clues and whatnot leading to Raptor's whereabouts
- Catherine → VERY IMPORTANT → tricky to location & mental state
- FBI members → happy to pinpoint PSI stuff → update on all in custody

|| - also, Chimera & Blackfell's trail!!

- ~~FS support staff~~
- Doyle & Hamilton subplot → Doyle tries to pull expose w/ rival network
- Rich subplot → invited to meet her parents! [nb they emphasize her immaturity]
- Shawn subplot → more madness in bedroom, TRC & conflict w/ Serpentine

- Raptor rescued by Amandla and Citraitaya
- encounter with the Devourer → appears & eat especially, maybe allows Raptor & ladies to escape
- try to get Blackfell's connection/vulnerability to chaos worked in somehow

~~Agenda appears and it~~

setting: PSI lab in Miami - lots of equipment, "biochemical" room, safe-house - nb partially broken down as authorities are aware of it, current hussle over who owns the stuff - Mandala has a claim

What is the place? a gymnasium in a private school that went under & is now over it in a legal limbo

[An interesting detail: Bombshell's activities lead to the coup in Russia]

the gym has a big lab setup, obstacles for physiological monitoring, nb restraints. safe-house in Floor still secure, nb heavy-duty power lines rigged through scambler lines, no equipment now to retrieve it. heavy rafters now clogged w/ dust, ropes & cables & boxes set up there. med's recently refurbished & being used, some electricity huddled up (down in safe-house → e.g. desk meter)

The Disaster (as plotted in notebook) → Citraitaya made helicopter crash, Amandla set up traffic accident ~~stunt~~ that ruins help's ability to get there. Then both see out for gym. NB catching them in circles at the scene(s); also nb attacking them is 1st degree assault, plain and simple.

Citrucaya
